

- ◆ The Individualized Education Plan
- ◆ Lesson Planning
- ◆ Testing
- ◆ Portfolio and Authentic Assessment

These are the tasks that take up teachers' time. Super School Software provides the solutions that will save teachers time.

### Test Designer Supreme II

Designed to help teachers, students, and parents to modify tests and assignments while working in the regular classroom setting.

#### Special features and benefits include:

- ◆ Special tools are included to improve test-taking skills
- ◆ Special features to help improve visual and auditory memory skills
- ◆ Students can turn class tests into notes that can be turned into practice tests.
- ◆ Supports color, sound, graphics, and various font sizes
- ◆ Students can take tests right on the computer or print out tests
- ◆ Clocks and timers are included so you can work at your own pace
- ◆ Many question types are available such as multiple choice, true/false, completion, essay, short answer, group questions (paragraph, picture, and several different types of questions all together as one question), and dynamic question type (paragraph, picture, and math equations)
- ◆ Built in math processor: You design one math equation and Test Designer completes all the rest. (This feature will save you lots of time designing homework, class work, and modified math tests and special assignments.)
- ◆ You can mix, match, collate, and scramble questions to make different types of tests

Comes complete with covers sheets and tools to export your files to Microsoft and desktop publishing programs if you need to take advantage of spelling checkers, thesaurus, and special page layout features that are part of Page Maker and other desktop publishing programs. Test Designer Supreme is perfect for authentic assessment projects that are part of portfolio assessment programs. It is easy to make quick screening tests and other forms of informal evaluation

#### Additional features include:

- ◆ Built-in painting program
- ◆ imports graphics on all types of questions
- ◆ imports sounds
- ◆ tutorial included
- ◆ This program can be used across a network
- ◆ randomizer
- ◆ detailed script editor
- ◆ password utility, and password protected

Windows version includes additional features including matching, crossword puzzle creator, drag and drop, Windows 98/XP compatibility, puzzle makers, and special features to assist students that continue to get the wrong answer while taking any test. It is possible for students to operate this program on their own to create special study units that will help them to be more test wise. It includes sample test questions to help students get started. Special district and caseload licenses are available.
